

## RECENT PUBLICATIONS

1. LINDQVIST, P.: On the time derivative in an obstacle problem. –To appear in *Revista Matematica Iberoamericana*.
2. LINDQVIST, P., MANFREDI, J.: Note on a remarkable superposition for a nonlinear equation, *Proceedings of the American Mathematical Society* **136** (2008), pp. 133-140.
3. KINNUNEN, J., LINDQVIST, P.: Definition and properties of supersolutions to the porous medium equation. *Journal für die reine und angewandte Mathematik (Crelles Journal)* **618** (2008), pp. 135-168.
4. LINDQVIST, P., MANFREDI, J.: Viscosity supersolutions of the evolutionary  $p$ -Laplace equation. *Differential and Integral Equations* **20** (2007), pp. 1303-1319.
5. JUUTINEN, P., LINDQVIST, P.: Pointwise decay for the solutions of degenerate and singular parabolic equations. *Advances in Differential Equations* **14** (2009), pp. 663-684.
6. LINDQVIST, P., LUKKARI, T.: A curious equation involving the infinity-Laplacian. *Advances in Calculus of Variations* **3** (2010), pp. 409-421.
7. LINDQVIST, P.: On the time derivative in a quasilinear equation. *Transactions of the Royal Norwegian Society of Sciences and Letters* **2** (2008), pp. 1-7.
8. LINDGREN, E., LINDQVIST, P.: Stability for the infinity-Laplace equation with variable exponent. Manuscript.
9. LINDQVIST, P., PARVIAINEN, M.: Irregular time dependent obstacles. Manuscript
